

PacStar Receives Subcontract to Perform on Army's ITES-2S Contract Vehicle

Portland, Ore. (December 7, 2007)—PacStar™, a technology-based systems integrator that provides total communications solutions to military, government and commercial customers, announced today that it has received a subcontract from Science Applications International Corporation [NYSE: SAI] to perform on the U.S. Army's Information Technology Enterprise Solutions 2 Services Contract (ITES-2S). The ITES-2S contract is an indefinite-delivery/indefinite-quantity vehicle with a three-year base period of performance and a total of three, two-year options. SAIC is one of 16 companies to receive a prime contract award under the ITES-2S program, and the estimated, collective value of the entire program is \$20 billion.

As a subcontractor to SAIC, PacStar will have the opportunity to provide the Army with IT services, business process reengineering, information systems security, information assurance, network support, systems operations and maintenance, program management, enterprise design, integration and consolidation, and education and training.

“PacStar looks forward to supporting the United States Army through the ITES 2S contract. ITES will be the premiere Information Technology contract providing services and support to the warfighter into the next decade,” said Robert Frisbee, CEO of PacStar. “PacStar's mobile and base-level communications solutions will enable the Army to better deploy, train, support and communicate in both tactical and fixed site environments. PacStar has already begun to serve the Army through ITES-2S by providing Web portal services to the US Army in Germany.”

About PacStar

Pacific Star Communications (PacStar™) is a leading technology-based systems integrator providing total communications solutions that empower military, federal, state and local governments, and emergency responders with reliable, interoperable communications capabilities. Our patent-pending IQ-Core™ software and hardware technology and integration/installation services provide secure, command control and communications systems for any environment. In addition, PacStar provides a full range of communications solutions to commercial businesses, as well as telecommunications service providers.
